古紙類	Used papers for Recycle	Please separate by the type of used paper and tied each of them with plastic straps.

※ For additional instructions sorting of garbage and trash, Refer to attached sheet of "How to sort out garbage and trash"

## Purpose of sorting garbage and trash

By sorting garbage and trash, it would reduce them and utilize recycle and reusable items.

There are many things that can become resources and things that can be reused in garage and trash. Utilize them by sorting out to Reusable items and recycling items make it possible to reduce wasteful use of resources and energy.

This effort would contribute to lead counter measure to "Global Warming", the topic of world public opinion, in recent years. it is thought to also lead to measures of "global warming", which is a problem all over the world.

For the future of the global environment, your cooperation is greatly appreciated.

## Rules of garage and trash disposals

1. Dispose garbage and trash by 8:30 am to designated collection area on the collection day.
2. Sort garage and trash neatly and dispose at the designated garbage collection station on the correct collection day.
3. There maybe a different disposal station depend on type of garbage. In addition, Please follow rules of residents association where you reside.
4. If you are not sure where disposal station is, Please inquire to resident association officers or neighbors where you live. Disposal station is managed by residents association. Please follow rules of the residents association and cooperate with residents regarding responsibilities such as cleaning of the Disposal station.
5. It is prohibited to dispose garage and trash at area that is not designated disposal station. It is consider as "Illegal Dumping"
6. Collection date may differ depend on your resident area. Even if you dispose the garbage at collect garbage station, If it's not on the collect date, it will be consider as "Illegal Dumping"
